

The World Economic Forum is an independent international organization committed to improving the state of the world by engaging leaders in partnerships to shape global, regional and industry agendas.

Incorporated as a foundation in 1971 and headquartered in Geneva, Switzerland, the World Economic Forum is impartial and not-for-profit; it is tied to no political, partisan or national interests.

As a result of the successful growth of our organization, we are now searching for a:

PROJECT MANAGER IT

Nine-month assignment

You will be responsible for the implementation, support and upgrading of technology solutions, as well as IT-based services, to support the Forum's staff, both at headquarters and during external meetings. You will ensure implementation, support and evolution of technology solutions and services based on information technology, including definition, documentation and continuous improvement of procedures. You will help manage the provision of central IT services regarding membership, partnership, event programmes, reporting and marketing. You will ensure the evolution and administration of current applications, monitor data quality and handle end-user support. You will work on new technology projects, for example the replacement of a legacy system, as well as manage external resources (third-party developers).

You have a university degree in science or technology and at least five years of relevant technical experience (Web technologies, Open source, Microsoft and mobile devices). You have acquired a sound technical background in application development (.Net, Java and SQL), IT operations and leadership of complex projects, as well as IT security management. You speak English, French and German.

If you are an action- and results-oriented team player with excellent communication skills and are ready to take on this challenge, please apply for this position through our website:

www.weforum.org/careers

This position is open to Swiss and EU nationals, as well as holders of a valid Swiss work permit.
